Mahmoud Moustafa

Informatica IDMC delivery support for partners and data teams

Remote · Egypt (GMT+2/+3) · English and Arabic · Fixed price per work package, day or hourly rate · NDA by default

WHAT I DELIVER

- **Cloud Data Integration loads:** file and database sources to warehouse tables; cleansing, type conversion and standardisation; reject handling with a reason per row; rerunnable loads; source-to-target reconciliation.
- **Data quality and profiling in IDMC:** profiling reports (completeness, duplicates, invalid values), data quality rules, scorecards, deduplication, and rejects reports the business can act on.
- **Metadata and governance:** Metadata Command Center extraction, data catalog setup, users, roles and access in IDMC, Secure Agent and connections, data classification support (Public / Restricted / Confidential / Top Secret).
- **Power BI:** reports and dashboards on top of clean, reconciled data.
- **English and Arabic delivery:** workshops, training, documentation, data dictionaries and governance documents in both languages.

EXPERIENCE

- **Renad Al Majd, Riyadh (Informatica partner), Data Management Specialist, Feb to Aug 2026.** National data governance program under the NDMO data management standards with government entities: IDMC profiling, data quality rules, Metadata Command Center extraction, role-based access, classification coordination; Informatica and Power BI training; a data management workshop at King Saud Medical City.
- **Case study:** CRM customer file to data warehouse in IDMC Cloud Data Integration, with cleansing, duplicate and reject handling and reconciliation. 30 rows read = 23 loaded + 7 rejected with reasons, 0 errors. Available on request.

CREDENTIALS

- Informatica Cloud Data Quality Professional certification (2026)
- Bachelor of Computer Science, University of New Brunswick, Canada

HOW I WORK WITH A PARTNER

- I take a defined work package (a set of mappings, a profiling round, a migration batch, documentation) under your brand and process.
- Rules and acceptance checks are agreed up front; delivery comes with row counts and a short handover note.
- A short paid pilot task is welcome, so you can judge the quality before a bigger package.
